

Abstract

Research Title : Colorant Extraction from *Neurospora sp.*
Author : Mrs. Jaruwan Chutrtong
Year : 2009 -2010

.....

This Research aims to study Colorant Extraction from *Neurospora sp.* which cultured in solid state. By using 3 type of solvent, Acetone Chloroform and Ethanol (95%), the most efficient solvent is Ethanol (95%) . Because Ethanol is not dangerous for health, it's good to use color from *Neurospora sp.* in ethanol solution .
