3. From the opinions of the experts were satisfied vase products that most 1 (mean equal to 4.45) and the environment. You satisfied products that 1 most (mean = 4.15).

Suggestion

The laser cutter is mainly engaged in manufacturing techniques. The advantage is the ability to control the quality of products has been a colorful one. But the downside is that local residents do not have the ability to laser cut yet. It requires technicians from abroad to manufacture. It will focus on materials that locals can easily do yourself, such as pvc or plastic.
