ACKNOWLEDGEMENTS	II
ABSTRACT	II
TABLE OF CONTENTS	IV
LIST OF TABLES	VI
LIST OF FIGURES	VII
LIST OF FIGURES	VII
ACRONYMES AND GLOSSARIES	VIII
ACRONYMES AND GLOSSARIES	VIII
CHAPTER 1 - INTRODUCTION	1
1.1 Background	1
1.2 Research Objectives	3
1.3 Rationale of the Study	4
1.4 Scope and Limitations of the Study	4
1.5 Research Methodology	5
CHAPTER 2 - LITERATURE REVIEW	6
2.1 Overview of Water Supply and Management in Thailand	6
2.2 Current Situation and Issues of Rainwater Harvesting in Thailand	8
2.3 Community Rainwater Harvesting Systems	15
2.4 User Demands Assessment in Water Supply Provision in Small Communities	22
2.5 Considerations in Designing Rainwater Harvesting Systems for Small Communities	26
CHAPTER 3 – OVERVIEW OF RAINWATER UTILIZATION IN BANGSAIY MUNICIPALITY	29
3.1 General Profile	29

3.2	Provision of Water Supply and Drinking Water Services	33
3.3	Rainwater and Its Utilization	35
CHAPTER 4 – ASSESMENT OF USERS DEMAND IN WATER SUPPLY AND RAINWATER UTLIZATION		37
4.1	Users Background	37
4.2	Demands in Water Supply and Drinking Water	40
4.3	Demands in Rainwater Utilization	43
4.4	Roles and Perceptions of Stakeholders in Rainwater Utilization	
4.5	Summary of User Demands	
CHAPTER 5 – PRELIMINARY DEVELOPMENT OF RAINWATER HARVESTING IN BANGSAYI MUNICIPALITY		
5.1	Criteria for Designing Appropriate Pilot Project	48
5.2	Design of Pilot Project for Rainwater Harvesting Systems	50
CHAPTER 6 - CONCLUSIONS AND RECOMMENDATIONS		55
6.1	Conclusions	58
6.2	Recommendations	57
REFERENCES		58
APPENDICES		63
APPENDIX I - GENERAL SUPPORTING DATA		64
APPENDIX II – WATER SUPPLY AND DRINKING WATER SYSTEMS IN BANGSAIY MUNICIPALITY		85
APPENDIX III – DESIGN OF RAWATER HARVESTING SYSTEMS		92

List of Tables

Table 1-1: Number of Sample Sizes in Three Sub-districts of Bangsaiy Municipality	4
Table 1-2: Selected Users from Public Institutions	4
Table 1-3: Key Informants Invited to Focus Group Discussion	5
Table 2-1: Typical Hazards with Rainwater Tanks	11
Table 2-2: Rainwater Characterization in Various Locations at Rajamangala University of Technology Thanyaburi and at Ayutthaya Province	13
Table 2-3: Comparison between Roof Catchment System and Ground Catchment System	19
Table 3-1: Summarization of Land Use in Bangsaiy Municipality	31
Table 3-2: Groundwater Information in Bangsaiy District	33
Table 3-3: Number of Private Irrigation Basins in Bangsaiy Municipality	35
Table 4-1: Levels of Income and Education of Respondents	38
Table 4-2: Educational Level of the Residents Surveyed	38
Table 4-3: Number of Users of Selected Public Institutions	40
Table 4-4: Frequency Distribution of Volume of Water Demands Per Month	41
Table 4-5: Percentage Distribution of Perception in Water Tariff	42
Table 4-6: Interest of Rainwater Utilization	45
Table 4-7: Number of Respondents and Their Preference in Using Rainwater for Different Functions	45
Table 4-8: Demands in rainwater utilization of selected public institutions in Bangsaiy Municipality	46
Table 5-1: Components of a Pilot Project and its Cost Estimation Designed for Household Users	52

List of Figures

Figure 1-1: Mean Annual Rainfall in Thailand from 1971-2000	1
Figure 1-2: Research Framework	1
